READING

Choose the best answer according to the Reading "*Penguins*":

Penguins

Penguins are among the most popular of all birds. They only live in and around the South Pole and the continent of Antarctica. No wild penguins live at the North Pole. There are many different kinds of penguins. The largest penguin is called the Emperor Penguin, and the smallest kind of penguin is the Little Blue Penguin. There are seventeen different kinds of penguins in all, and none of them can fly.

Penguins have to be able to survive in some of the Earth's coldest and windiest conditions. **They** are great swimmers and have thick layers of fat to protect them from the bitter cold. Even in their freezing cold habitats, penguins still have to **watch out** for predators such as killer whales and seals.

Choose the correct answer according to the text "**MY DAILY ROUTINE**"

My Daily Routine

I always get up at half past six and I have breakfast with my parents and my older sister Sofia. I really like cereals but my sister loves bacon and eggs. My parents eat coffee and toast. We often go to the university by train and my father always goes by car. My mother works at home, she is a lawyer.

We have lunch at university from Monday to Friday, because in the afternoons we do extra activities such as to sing in the choir and to play basketball. My sister goes to art class and she seldom plays boxing.

After the university, we go home and my mother always gives us orange juice with cookies. We also help at home; I sometimes clean the rooms and my sister often washes the clothes. In the evenings, we watch a film on Netflix, we play games and talk about our day. My sister and I go to bed at eleven o'clock.

On weekends, we frequently get up later, around twelve o'clock. We occasionally play outdoors games with some friends. Then we usually visit our grandmother, I like her very much! She makes us cakes and we often meet all afternoon with our family. It's great fun!

- **How many people conform this family?**

Choose the correct answer according to the text "The Moon."

The Moon

The Moon is the satellite of the Earth. It is about the quarter size of the Earth. It goes around the Earth approximately in one month. It is about 384,000 kilometers away from the Earth. There is no air or atmosphere around it, so there is no life on the Moon. It has about 13 and a half days daylight and 13 and a half nights of darkness. Temperatures on the Moon is 120 °C during the lunar day and -150 °C during the lunar night. Because there is no air or atmosphere, there is also no sound as the sound waves travel through the air. So, The Moon is very silent.

- Why there is no life on the Moon?

Selecione una:

a. Because there is no sound.

b. Because it is so far away.

c. Because it has only 13 days of daylight.

d. Because there is no atmosphere or air.
